

I am deeply honoured and humbled to be a part of the Movement for Change and Prosperity, MCAP. For me the title encapsulates what the party is all about. It is about the realisation of the vision, hard work, determination, talent and hope of a people. It is about the philosophy that we share to restore the dream of a peaceful stable and productive island called Montserrat.

In MCAP we see an activist Government with progressive policies that create opportunities for all. In MCAP we see a government that promotes mainstream values like discipline, hard work, family, responsibility and community.

Our challenge is to restore the faith of Montserratian residents in the basic competence and purpose of government. Our policies and programs reflect a clean break with the recent rhetoric but not with traditional values.

We believe in the moral and cultural values that most Montserradians share; liberty of conscience, individual responsibility, tolerance of difference, the imperative of work, the need for faith and the importance of family.

Finally, we believe that citizenship entails rights as well as responsibilities and we intend to ask our citizens to give something back to their communities.

This manifesto represents our commitment as a party to building a Montserrat that is characterised by these values.
